

# WALKING CRAB

MODEL: SHOKO AOYAGI  
DIAGRAM: SHOKO AOYAGI

The walking crab is a fun design that walks sideways when you tap it. Shoko is well known for her fun origami style – she likes to use stick-on eyes to add character to her origami creations. You cut out circles of white and black paper and glue them together, or use pre-cut circles that are available at office suppliers.

*The walking crab is a contemporary Japanese design.*

1 Fold and unfold diagonals. Turn over.

2 Blintz fold.

3 Completed step 2. Turn over.

4 Blintz fold again.

5 Completely unfold the paper.

6 Then fold sides to center.
